Bio 97: Genetics Lecture D, Discussion - Fall 2012

TA: Dustin Phan
Email: ddphan@uci.edu
Discussions: Mondays 1:00pm-1:50pm
Discussion Location: HSLH 200
Discussion Website: https://eee.uci.edu/12f/05362
Lecture: MWF 10:00am-10:50am
Lecture Location: PSLH 100
Lecture Website: https://eee.uci.edu/12f/05328

Discussion Goal: Discussion sections are used to reinforce the material presented in lectures, and to answer questions about lectures and/or assignments. They are not a replacement for the lectures. There will be individual as well as group activities aimed at increasing the understanding of the class material.

Textbook: Genetics Analysis- An Integrated Approach by Mark F. Sanders & John L. Bowman

Enrollment: Students must attend the lecture and discussion section for which they have enrolled. Add/Drop/Change cards are no longer used. Online petitions must be used once the enrollment deadlines have passed. Please contact Bio Sci Student Affairs if you have any questions or concerns.

Attendance: Discussion section attendance is not mandatory. It is, however, highly recommended that you go to the discussions. We will be talking about the material covered in lectures. It is in your best interest to come and actively participate. Check the website regularly for any study materials you may need to bring to discussion. These will be posted at least 24 hours in advance.

Message Board: You are all encouraged to participate in using the message board. Please post questions in the appropriate forum. Answering other students' questions is also an excellent way to test your knowledge of the material.

E-mail: All e-mails will be sent to the address on file with the registrar. I will try to respond to e-mails within 24 hours.

Academic Resources: I highly recommend LARC tutorials. The small group sizes will help you learn the material. Check out the website for class times: http://www.larc.uci.edu/

Academic Honesty: It is assumed that all students are familiar with UCI's Academic Honesty Policy. For specifics, follow the link provided on the discussion website.
