Suggestions for Peer Oral Response

Please know that you do not need to follow these suggested talking points exactly. These are only suggestions. This list is meant to give you a sense of what to listen for, what your oral response to the Group Presentation might consist of, and what I will be looking for in my grading. (10 points)

- According to the Group, what were topics and arguments of this week’s authors? What were the theses of the readings?

- Name two things the Group did well in their presentation. How did these things deepen your understanding of the readings?

- Did you agree with the Group’s take on the material? Did you disagree? Did they introduce any ideas that you hadn’t thought of?

- Name two pieces of evidence from the texts that the Group used to support their interpretation of the reading. Were these effective? If so, why? If not, can you offer alternative examples from the reading that better support the theses?

- Name two things the Group could have done to improve their presentation.

- What question(s) do you have for the Group after their presentation?
