

Dear Instructor,

Please consider using UCI Replay and EEE Podcasts for this course.

Capturing and posting records with UCI Replay helps me stay on track, and linking to those recording with EEE Podcasts makes them easy to find:

- Record lectures and other class events via UCI Replay
- Recordings can help students catch up if they had to miss a class, and can help all the students in your class review materials and stud effectively
- Link those recordings to classes on EEE via EEE Podcasts

It's easy to get started with UCI Replay. All you need is free software, a SmartClassroom or portable microphone, and an account on the UCI Replay website.

Once you have recorded Replay materials, you can link them to your EEE class via EEE Podcasts by choosing a Replay recording, choosing one or more classes, and publishing the link. Students like me will be able to find the recordings quickly and easily via EEE.

 **About UCI Replay**
<http://replay.uci.edu/>

 **About EEE Podcasts**
<https://eee.uci.edu/help/podcasts/>

If you need more assistance, the EEE team is ready to help!
Just call (949) 824-2222 and ask for EEE help, or email eee@uci.edu.

Thank you for your time and consideration,

(student signature)

EEE is a partnership of the Division of Undergraduate Education, UCI Libraries, University Registrar, University Extension and Office of Information Technology
